

Below is a collection of my work, alongside a few of the travel photos that shaped my editing style over the years.

These are the colours my editing loves: warm, faded and muted tones, with a few deeper accents. Pick two or three for each person and let them sit together rather than match, with a deeper accent if you love one.

NEUTRALS

Cream

Sand

Ochre

Chocolate

GREENS

Sage

Eucalyptus

Olive

Forest

DEEPER ACCENTS

Mustard

Rust

Dusty teal

Maroon

CLAY & ROSE

Blush

Clay

Brick

Chestnut

BLUES

Film sky

Dusty blue

Denim

Charcoal

To start, anything you feel the most **you** in. If you'd like a bit of guidance, below are suggestions, not hard rules.

- Textures
- Denim
- Dresses you feel you in
- A deeper accent colour or soft pattern, if you love one
- Sneakers, sandals and even bare feet
- If you have tattoos and you're comfortable, flaunt them

Tips

Wear what you feel comfortable in. If you think something might not work or are still looking for ideas, send me a message and we can talk it through.
